Two Fires. The fire department was called out yesterday afternoon at 2 o'clock to the residence of Mrs. Elizabeth Noack, at 245 Vine street, Mrs. Noack had just lighted a gasoline stove and left the room for a moment. When she returned her room in the upper story of she house was in flames. It was some time before the fire was extinguished, and in the meantime all the furniture in the room had the water. The damage will amount to about \$100, which is fully covered by insurance. The lower part of the house was vacant, the family who had been living there having moved out a few days ago.

The residence of N. C. Phillips narrowly

escaped being demolished by fire Sunday night. Late in the evening some of the family discovered a smell of smoke. A careful search was made all over the house, up and down, and at last, when the door of a closet upstairs was opened, the flames darted out. A generous dose of water extinguished the flames, and yesterday the insurance companies allowed him \$12 for his damage Mr. Phillips was at a loss to account for the origin of the flames until he chanced to reember that he had gone to the closet earl in the evening, and had lighted a match while looking for some things, after which he had carelessly thrown the match on the

Arrest of Two Crooks with a Kit of Burglars' Tools.

WANTED FOR CRACKING A SAFE IN OMAHA.

Raised Dead Indians-The City Hall Question-A Missing Rattroad Man - Will Have a New Church.

What will probably prove to be one of the richest catches of the season, so far as crooks are concerned, was made yesterday afternoon. Officer Kelley spotted a disreputable looking character early in the afternoon as he was trying to dispose of a fine gold ring at a second hand store. The policeman did not arrest him at the time, but shadowed him in order to capture, if possible, a pal whom he suspected he had. He at last followed the supposed crook as far as the corner of Broadway and Fourth street, and there, in company with Officer Murphy, he arrested the parties.

At the police station they gave the names of Frank Kelsey and Fred Fink. Kelsey had in his pockets, two revolvers, a powder flask and seven Mexican coins of ancient date. Fink had two revolvers, a can of powder, two drills, a fuse and a blow pipe. The whole thing was as neat a kit of tools as the most enthusiastic of safe blowers could wish

It is supposed that the two men are the ones who did the job at L. Harris' bottling works on lower Broadway Saturday night, although there is nothing on their persons that will assist in fastening the crime on them. It is not likely that they will be allowed to go free, however, for if nothing can be proved against them here, there is a job in Omaha which will in all probability be laid at their door. Last Saturday night there was a safe blown open on Sherman avenue in Omaha, and a lot of curious coins were taken. Detective Hays of Omaha was in the city yesterday and stated that he was not sure whether the coins that were taken were Mexican or not, but if they turn out to have been coins of that kind the guilt of the two men will be pretty thorough-ly established. The parties who lost the coins are to be notified of the capture of the uspects and will be over in a day or two to nvestigate.

Another article that is supposed to have been stolen is a fine large gold ring, with a heavy seal, bearing the initial "D." set with chipped diamonds. This is also thought to be a reit of the Sherman avenue expedition. The police are well satisfied that they have gotten hold of two desperate crooks, and every effort will be made to prove that they are the parties wanted.

The Chop House Again.

An injunction suit which has just been commenced in the district court by Henry N. Yapp against John Linder and J. L. Peter throws a new light on the failure of the Council Biuffs chop house, which occurred last week. Yapp states that he sigued a lease of the property at 15 Bain street, baying been induced to do so by Linder, who represented that he had the control of the property, and the right to execute the lease. He claims that he has since found out that Linder had no right such as he claimed, but that the building belonged to Mrs. Jennie White. Yapp also states that Linder purchased, a chattel mortgage on the property from Mandel & Klein, for \$19.40, and immediately closed him out.

In order to avoid trouble, Yapp paid the officer the amount demanded and took possession of the property, after execu-ting a bond for \$250. He claims that after all this had been done Linder and Peter, his bookkeeper, entered the building after night and nailed up the doors in order to prevent the plaintiff from using it. He alleges that the defendants have damaged his business to the extent of \$5,000, and he asks a judgment for the amount. He also wanted an injunc-tion restraining the defendants from inter-fering in any way with the peaceable tossession of the place. The injunction has been granted, and the building is now in the hands of Yapp.

## AORTHWISTERN SWITCHMEN.

General Manager Whitman States the

Position of the Company. CHICAGO, May 18 .- The situation between the Northwestern railroad company and its discharged switchmen remains unchanged. The officials of the road say they will re-employ such of the discharged men as they are satisfied will prove faithful and efficient em-ployes, provided they make application for rematatement at once. The business of the oad continues to run as usual.

Gineral Manager Whitman states the post tion of the company as follows: "Such ex-employes of the company as are capable and acceptable will be given preference in filling all vacancies that occur in our switching service. So long as those at present employed are capable and are desirous of con tinning in our service they will be retained. Those old discharged men who have engaged the company in incessant troubles by foment-ing strikes will never again be employed by this company. Hereafter the company's officials and not the Switchmen's Mutual association will run the company's affairs.' Many of the discharged men recognize the fact that they will not be taken back and are seeking employment elsewhere.

Coal Operators Try Bulldozing. PITTSBURG, Pa., May 18.-A special from Scottdale, Pa., says: Operators are making a most determined effort to force the men at the miners' convention tomorrow to vote to abandon the strike, while labor leaders on the other hand have been among the men and say they are practically unanimous in their desire to continue out. The Frick and Mc-Clure companies started the Redstone, Youngston, Hawkeye Valley and Oliphant plants with a few men and say they will start five other plants this week. Men are coming into the region in carloads, and it is doubtful if the strikers can stand the pressure much longer. They are suffering for the necessities of life and hundreds have no roof to call their own. Altogether if the men do not vote to go back tomorrow it will be cause independent operators or some power ful labor organization pledges the greatly needed financial support.

Protect ng Negro Miners. FRANKLIN, Wash., May 18.-The negro niners who arrived to work in the coal mines of the Oregon Improvement company were yesterday placed in possession of the houses and tents provided for their use near the No attempt was made to molest The negroes are confined to certain limits as far as possible and are surrounded by armed guards. Much indignation was ex-pressed last evening at a meeting of whites and a resolution was adopted protesting against the presence of armed guards.

MILWAUKEE, Wis., May 18 .- The strike of

the stonemasous and brick ayers has been declared off, and the men and bosses have agreed. It is a victory on the whole for the bosses, although the strikers obtain an advance in wages. The men who had been receiving 57% cents at hour demanted 45 and will be paid 40 cents. The only concession by the bosses was the granting of the 25 cents additional in wages.

Preparing to R sume Work. Mason Cirr, Ia, May 18 .- Advices recived today from several localities in the tate where miners have been on a strike are to the effect that operators are about to resume work, and before the week is out the usual output of coal may be looked for.

and a woman were seriously injured. The ause of the explosion is not known. Olaf Rixson and wife, occupants of the Olar Mason and wife, occupants of the house, were preparing supper at the time. They saved their lives by jumping from the window. A logger named Eric Anderson was severely burned about the head. Charles Peterson, a visitor, refused to jump from the window, although every effort was made to induce him to do so, and he was burned to death.

AFTER MIDNIGHT.

Things That Disturb the Silent Watches In Omaha.

There is a new night watchman at the Sheely block, and late last night he became muddled from an over indulgence in whisky. When he attempted to pull his hourly report to the American District Telegraph office, instead of turning the knob to "O. K.," he gave the knot a whirl to police, then fire and followed it with a call for a messenger. The American District Telegraph people sent a messenger boy and a policeman over to investigate. The watchman was found lying on a bench in the cellar nearly insensible from the effects of ilquor. When awakened the watchman was quite ugly and was alowed to continue his slumber. A patrolman kept his eye on the building until morning. At 12:30 o'clock this morning a basket was eft at the door of St. Joseph's hospital containing a ten days old infant. The child is a boy. There was nothing in the basket or on the child's ciothing to indicate where it came from. The sisters took temporary charge of the foundling. Charles Carpenter was yesterday bound over to the district court in the sum of \$500
